Minghua Zhang : Chinese Jade: Power and Delicacy in a Majestic Art (Arts of China) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Chinese Jade: Power and Delicacy in a Majestic Art (Arts of China):

0 of 0 people found the following review helpful. Good source for information on jadeBy Webb ScottI found this book very helpful for identifying jade. There are so much faux glass jade around that it makes it difficult to recognize the genuine article.8 of 10 people found the following review helpful. Nice pictures but not enough contentsBy GoldeagleThe paper and pictures of the book are quite nice. Unfortunately there is not enough material about jades. This book is not worth its price.3 of 4 people found the following review helpful. This stone has a few cracksBy

Nancy L. Terry Chinese jade: A picture is truly worth a thousand words. Here you have the thousand words--and not nearly enough pictures to show why the Chinese have revered this beautiful stone for thousands of years. The text itself is quite informative--especially when used to determine jade carvings of different periods. As a mini-textbook, it is very valuable. I truly wish I had enough collectible jades from these earlier periods so I could use this book to date them.

This richly illustrated volume explores the history and variety of China's greatest jade masterpieces, which have fascinated artists and admirers for thousands of years.
