**Brian Laban : Classic Porshes: Generations of Genius** before purchasing it in order to gage whether or not it would be worth my time, and all praised Classic Porshes: Generations of Genius:

0 of 0 people found the following review helpful. Great Porsche book.By turbonium959This book is great. The books covers some of the rarest and unique models from the Porsche history. It offers just the right amount of technical and historical data about the cars and the illustrations are just fantastic. If you are a Porsche fan, of any kind, you have to have this book.

More than two hundred full-color illustrations chronicle the fascinating history of the legendary automobiles, from the first rear- engined, aluminum-bodied Type 356 through the present-day, sporty 968.
