**Carol C. Mattusch : Classical Bronzes: The Art and Craft of Greek and Roman Statuary** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Classical Bronzes: The Art and Craft of Greek and Roman Statuary:

"An excellent synthesis of historical and archaeological information with thoughtful analyses and documentation of both famous and virtually unknown bronzes. Mattusch's focus on the idea of 'original' and 'copy' is absolutely critical

to our understanding of so much that has and has not survived from classical antiquity." - Richard De Puma,  
University of Iowa
