Kurt Vonn Gutzman : Collect Them All!: Confessions of a Recovering Action Figure Thief. before purchasing it in order to gage whether or not it would be worth my time, and all praised Collect Them All!: Confessions of a Recovering Action Figure Thief.:

0 of 0 people found the following review helpful. pretty entertaining for collectors and non-collectors alikeBy Stark77Quick read, pretty entertaining for collectors and non-collectors alike. Something about the stories of the children stealing action figures from corner stores was hilarious to me. The personal aspects of the story (home/family life) were quite sad and dark, but life can be that way sometimes. The icons/picture for each of the action figures were

great, as were the details of the acquisition of each figure.0 of 0 people found the following review helpful. Sticky fingersBy bruce3318Very fun account of growing up Star Wars. Stealing is wrong, but reading about these 2 made me LOL, remembering my youthful indiscretions. A few errors in facts but overall a very fun read!0 of 0 people found the following review helpful. If you're a child of the 1980's and loved Star WarsBy Jeff F.Quick, hilarious read! The childhood anecdotes peppered with Star Wars merchandise makes for an identifiable and clever story. If you're a child of the 1980's and loved Star Wars, I highly recommend grabbing this book.

The tale of two brothers fanatically collecting Kenner's Star Wars Action Figures by any means necessary. Over 100 tiny portraits punctuate the acquisition of the figures throughout the Odyssey. Starting in 1978, the story combines fond, odd and sometimes disturbing childhood memories from along the brothers' personal journey; collecting nearly every figure ever made by 1985. Some adult themes.

About the AuthorKurt Vonn Gutzman was born in 1970 in Duluth, Minnesota. Along with his big brother Jay, the pair collected Star Wars action figures throughout their young lives. Aside from that, their wide range of talents, from music to drawing, to writing and animation, has led them on to exciting lives of creativity.
