Produced during the occupation of Japan by United States forces from the end of the Second World War in 1945 to the end of the occupation in 1952, the items presented in this book have become coveted by a large number of collectors. They are identified by an import mark "Made in Occupied Japan" or "Occupied Japan." Thousands of ceramic figurines copying European styles; plastic, paper, and wooden household ornaments; dolls; lamps; vases and planters;

etc. can be found with these marks.
