A compendium of wise and common-sense adviceBy Midwest Book ReviewIn Grandma Always Said..., Pearl Hummerding has created a compendium of wise and common-sense advice, exactly the kind of commentary that rural grandma's were ably to dispense and drawn from their hard won farm wisdom. From "A Watched pot never boils. But an unwatched pot boils over." to "Cows don't care what you wear. They just care if your hands are warm.", Grandma Always Said... is a collection of home-spun insights that are as entertaining as they are inspiring. There should be a copy of Grandma Always Said... on the shelves of every village, town, and city library throughout the country!!0 of 1 people found the following review helpful. Hard Core Grandma.By mc in texasThis book gave me a few things to giggle about. Talk about old school with the switching on the wrists. This granny would put you in your place.
