More pictures would be helpful, even though the descriptions are very good on the coins not pictured. Still, one of the best references available. Fast shipping. Recommended!1 of 1 people found the following review helpful. the classicBy No BS guyNot many books with photos on this somewhat esoteric subject. This classic is probably the best out there and it is very difficult to find.0 of 1 people found the following review helpful. Five StarsBy JOHN CARTEREXCELENT

This catalogue is unique in providing the collector with the only comprehensive and authoritative guide devoted specifically to the local coinages of the Roman Empire, undoubtedly the most neglected series in the whole of ancient classical numismatics. Greek Imperial coins span more than three centuries from Augustus to Diocletian, and were issued at over six hundred mints from Spain to Mesopotamia.
