0 of 0 people found the following review helpful. Not what I expectedBy john schmitzIf you are looking for a book to log your fire arms look else ware. This book has one page to log one firearm. All the other pages are lined I assume to write any repair information etc. My book may be a misprinted or maybe a better description of the book should have been given. Could use a spiral note book from staples to achieve the same results.

Why do you need a gun log book? For the primary reason that your guns need papers and history to be legal. Write about the gun specifics, including its purchase price, estimated value and any other important information that come with your specific weapon. Keeping an updated gun log book will serve as a solid proof to agencies, courts and other legal entities.
