Fun book with amazing photosBy Kindle CustomerIf you love handbags, this is the book for you. It was fun to read about other women's perspective on handbags, and the beautiful color photographs were a feast for the eyes! If you don't have an appreciation for this must-have accessory, you will after you read this book!

Here's an affectionate look at the accessory beloved by so many women. More than 60 full-color photographs of purses both vintage and contemporary -- from Louis Vuitton classics to sparkling evening bags -- are accompanied by observations from dozens of women on what their pocketbooks mean to them. Handbags celebrates the significance women have always attached to this most personal item, which both contains the minutiae of their lives and lets the

world know how they define their personal style.
