Anonymous : How To Make A Silencer For A .45 (Silencers) before purchasing it in order to gage whether or not it would be worth my time, and all praised How To Make A Silencer For A .45 (Silencers):

3 of 3 people found the following review helpful. How to do it in your backyard is fine but NO science of the Silencer was added. By Kindle Customer It might have been really nice to have even a jackleg machinist do a few of them but

this was more two strings and some window screen. Will it work yes but not for very long. A weekend at the range or out back shooting squirrels and go get your self a new one. I was hoping for a list of where to buy the parts to build up the ones for a FHN tactical 45 with a screw-on front barrel Not one bit about the screw on barrel bits though that should have been much more prominent.dray1 of 1 people found the following review helpful. the worse book i have boughtBy oscar armando illescas esquivelwhen you read it you cant make anything until you buy the firs book of th same autor, really bad0 of 0 people found the following review helpful. OLD INFORMATION READILY AVAILABLE FOR FREE.By ForgivenONLY HAD OLD MEANS OF BUILDING SILENCER.

Because it does not produce a sonic "crack," the .45 is an ideal pistol for a silencer. Here is a nuts-and-bolts guide to making your own silencer for the Colt 1911 Government Model .45 and its clones. Includes construction details for all components, manufacturing tips that will save you time and effort, and plenty of clear illustrations. For academic study only.
