E. M. Forster : Howard's End and Other Stories (Giant Courage classics) before purchasing it in order to gage whether or not it would be worth my time, and all praised Howard's End and Other Stories (Giant Courage classics):

Considered one of the greatest novelists of his time, Forster's best works are collected in this volume. Besides the novel HOWARDS END, the book includes "The Celestial Omnibus", "The Road from Colonus", "The Curate's Friend", "The Story of Panic", "The Other Side of the Hedge", and "Other Kingdom"--plus a 1910 review of HOWARDS END and a critical essay on Forster and his work.
