Howard Woody : South Carolina Postcards: Richland County (SC) (Postcard History Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised South Carolina Postcards: Richland County (SC) (Postcard History Series):

1 of 1 people found the following review helpful. Postards from Richland County, South CarolinaBy J. WestonI picked this book up at the Richland County Public Library here in Columbia, South Carolina. The book shows postcards from both public archives and private collections dating back to the late 1890s up to the mid 1930s. Being

from the area, I enjoyed finding out how the names and places I see today came about. There were names mentioned that I can now match up to streets and buildings in town I see every day. Being educated in the Richland County public school system, I thoroughly enjoyed the section on schools in Richland County. I was finally able to see photos of the family school, Weston School, located just a few miles from my childhood home. I would love to have future volumes picking up from the mid 1930s to maybe just after the Korean War. With South Carolina being a military state, I would really like to see the changes for WWII and Korea. I removed the book from my Wish List because I now know I have access to this and the other volumes. I would make the purchase if I had an older relative (like my dearly departed father) from the Midlands or if I had a friend interested in Southern history.

In the heart of South Carolina lies Richland County, an area steeped in stories of conflict and resolution amidst America's formation. Home to Columbia, the present-day capital of South Carolina, Richland County has witnessed firsthand the state's growth and change as it has faced an ever-evolving palette of ideas and traditions. This new volume showcases over 200 postcards that illustrate early 20th-century South Carolina, highlighting the ways of life that still exist today and reminding readers of those that have since been abandoned.

About the Author In his fifth book illustrating South Carolina's history through postcards, Howard Woody concentrates on the "capital county," telling its unique story with vintage postcards dating from the 1890s to 1935. Richland County is sure to provide readers with an interesting and entertaining glimpse into the history of this vibrant region.
