Philip Peterson : Standard Catalog of Military Firearms: The Collector's Price and Reference Guide (Standard Catalog of Military Firearms: The Collector's Price Reference Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Standard Catalog of Military Firearms: The Collector's Price and Reference Guide (Standard Catalog of Military Firearms: The Collector's Price Reference Guide):

1 of 1 people found the following review helpful. Great catalog By R.S Beach I bought his book for my husband, who collects antique military firearms. Being 26, he's very computer savvy and looks everything up on the Internet. The

man loves his CMP forums. I got this as a filler gift for Valentines day and didn't really expect him to use it too much. He actually finds it very useful. His father is always traveling and buying guns and needs quick reference checks, serial # identification and price quotes and with this book my husband is able to look everything up and give accurate info over the phone. The book is really detailed with gun specifications and country information. It is full of information that is readily available on the Internet, but the book is really handy because it is all right there and, so far, accurate. 0 of 0 people found the following review helpful. Five Stars By Customer very nice and quick delivery 1 of 1 people found the following review helpful. Recommended to us at a gun show and now our go-to By JB This book was recommended to my son twice before we finally bought it. This is the reference book that we've seen multiple dealers pull out whether it's been at Cabela's or gun shows to buy older collector guns. Our go-to when we consult a book (of course, we still keep online too)--but, this is a nice book to own and provides great info in an easy to understand/find format. Would buy it again.

Your One-Volume Guide to Collectible Military Firearms! It's Standard Catalog of Military Firearms, 6th Edition! If you collect military firearms, your best insurance policy is to know what you're collecting and how much it's worth. There's no better source of this knowledge than the updated, revised 6th edition of Phillip Peterson's Standard Catalog of Military Firearms. From handguns to rifles to shotguns and fully-automatic machineguns and submachineguns, Standard Catalog of Military Firearms provides a remarkable complete guide to the world's military firearms and their accessories. It's all here: Detailed descriptions and values for the world's military firearms, from Argentina to Yugoslavia. Descriptions and values for related accessories including clips, magazines, bayonets and holsters. All-new entries for antique, pre-cartridge era military firearms. And much more! Protect yourself! Don't pay too much for military firearms—or sell for too little! Know what your collection is worth with Standard Catalog of Military Firearms, 6th edition!
