Amazing Book for production facts and detail changes per yr!By Steve S.This was an amazing book for knowledge on the Mustang from beginning to current production years. Each year of the Mustang is listed separately with full color pictures, production details, color codes, model year changes and more. Brad Bowling definitely knows Mustangs inside and out. Very well organized by year. Definitely worth the money to buy online. I couldn't find this in the stores locally.1 of 2 people found the following review helpful. MusdangBy A CustomerIf you love the Tang like I do this book is all you need babe. It has all the goods and then some. Buy it, read it and love it just as I do.

Lee Iacocca and his inspired crew created the first Mustang and released it to the public in the spring of 1964. The rest is history - the most successful all-new car ever. With comprehensive pricing for the first 30 years of Mustang and thorough coverage of all 1964-2001 models, this first-ever book is the perfect reference for devotees of the pony car legend. Everything the Mustang owner, restorer, or potential buyer is looking for is here, including identification data, engine and chassis specs, original factory prices, body types and their numbers, and model production totals. Special sections feature Mustang racing, Indy pace cars, prototypes and more.
