George Cuhaj, Thomas Michael, Michael Thomas : Standard Catalog of World Coins 1801-1900 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Standard Catalog of World Coins 1801-1900:

0 of 0 people found the following review helpful. Great buy By Clark Paton I got this instead of the much more expensive paper copy. I was concerned that maybe it was an old version, but it is the 8th edition, just as the picture shows. It is easy to store, is searchable, and comes in a disk with an Acrobat copy of the book. Perfect for my use. At half the cost of the paper copy, it is a great buy. Highly recommended.

Delve into one of the most diverse and industrious times associated with coin collecting, and come away with greater knowledge, a better understanding of the breadth of this period of world coin development and design.
