good, so you can click to your country of interest. A bit disappointed. The publisher has missed a tremendous opportunity to create a usable tool for active banknote collectors and traders. 0 of 0 people found the following review helpful. Standard Catalog By Book Buyer Another decent catalog. Its pretty useful, but I still can't give 5 stars because it's all in black and white, and some of the pictures are a little hard to make out. As I said with the other volume, it would be nice if they split this up into a few different books, and printed it in color. I wouldn't mind paying a little more for something that was printed in that way. I also found a lot of entries in this catalog that didn't have pictures, which was somewhat frustrating. 0 of 0 people found the following review helpful. It's some kind of a book By GONGE DKA good and detail full book With a the informations I need "the price is not the most importen".... pictures and text is absolute more the Thing fore Me
