While this is not the latest edition of this title and the internal pictures are in black white, it fully met my needs. The price was right too!

With the rapid fluctuation in market value of small-size U.S. paper money, collectors need up-to-date information in order to understand the value of their collections. Now, they'll find current pricing as well as identification information, in this fifth edition of the most comprehensive listing ever published. Over 275 near-full-size, detailed photos aid in identification of small-size paper money printed from 1928 to 2004. Includes accurate values and updated serial information, and the most exact figures ever published for quantities of notes printed. Values are listed in Very Good/Fine and Crisp Uncirculated condition. Collectors will enrich their understanding of the hobby with a thumbnail history of all modern paper money, illustrations and descriptions of all experimental notes, mules and blocks, and a list of the most rare and desirable small-size U.S. paper money.
